

Virtual Panels

Sign up to bring girls and non-binary students from your school to a virtual panel! A group of 4-6 speakers in STEM careers from diverse backgrounds will share their stories and engage with students in a question and answer discussion.

Duration: 60 minutes

Sample Virtual Panel Agenda

Welcome and introductions

Background information on STEM and non-traditional careers

Each speaker shares their story

Students engage in Q&A discussion with speakers

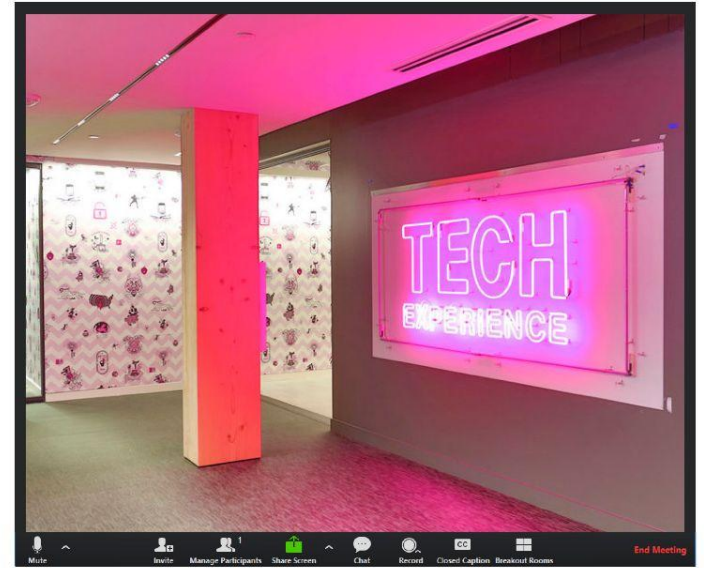

Students fill out survey

Final round of advice and goodbyes

Virtual Field Trips

Bring girls and non-binary students on a memorable, virtual experience to learn about a STEM company and discover the variety of STEM skills and careers! Students will participate in a small group critical thinking activity and engage in a panel and question and answer discussion with women in STEM at the company.

Duration: 90 minutes

Sample Virtual Field Trip Agenda

Welcome and introductions

Virtual tour of the hosting company

Women in STEM panel and Q&A discussion

Critical thinking activity in small groups

Students fill out survey

Final round of advice and goodbyes

Virtual Workshops

Sign up to bring girls and non-binary students to a virtual workshop. Skill-buildig workshops are held on a variety of 21st century topics, including coding and data visualization! Every workshop includes an IGNITE panel and question and answer session featuring women in STEM careers.

Duration: 90 minutes

Sample Workshop Agenda

Welcome and introductions

Background information on STEM and non-traditional careers

Workshop topic introduction and work time in small groups

Panel and Q&A discussion

Students fill out survey

Final round of advice and goodbyes
