

Advancing the Next Generation of STEM, Together.

About IGNITE Worldwide

IGNITE Worldwide is the answer to achieving gender equity in science, technology, engineering, and mathematics (STEM). We work directly with educators during the school day to provide events that promote STEM education and career advancement for girls and gender-diverse youth, primarily from Title 1 Schools and under-resourced communities. We inspire students to take charge of their future by building self-confidence through hands-on STEM activities and meaningful conversation with STEM professionals from their communities.

About Ignite the Future Spring Gala

The Ignite the Future spring gala is IGNITE Worldwide's premier fundraising and networking event of the year. For one night we bring together members of the IGNITE Community, including students, educators, and partners to sit alongside STEM leaders from leading tech companies, innovative startups, and global brands. The evening includes fun and exciting fundraising opportunities such as a live and silent auction, raffle, wine pull, paddle raise, and more.

All funds raised during the gala event directly support IGNITE Worldwide, the IGNITE Program, and most importantly – keeping IGNITE Program events cost-free for both educators and students to participate in.

2024 Gala Sponsorship Opportunities
